## PRESIDENTS PROGRAM

Well folks it seems Dayton is going to be the official Sinclair Computer show this year. Audrey Currnett has indicated they might be at the Dayton Fest. As soon as I get some information it will be passed on. I know SMUG will purchase a table and have representatives there. I am sorry that there won't be a Sinclair fest but maybe next year.

Sorry about not making the March meeting. My schedule for the next two meetings is the same, class until 7:30 then get picked up and taken to the meeting. The last time my driver went to the wrong location and I didn't get home until 10pm. But see you at the next one.

Can we get a caravan moving to get to Dayton for the Computerfest? At least meet at the fest to show off our stuff and see what's available.

Up coming events: For directions call. Chicagoland Computer Fair & Flea Mart. Orland Park Civic Center. Sun. April 14, 1991. Madison Swapfest & Computer Fair. Dane county expo center forum bldg. Sun. Please note all you digitizer's to be out there; we are down to our last few boards. If you were thinking about purchasing one better hurry. We don't plan on having anymore made as the demand has subsided.

## GIGO OR IN OTHERWORDS THE MEETING

Well the meeting was missed by yours truly. I had a communications failure and didn't get home until 10pm. There was one item of note. An old member re-joined. Who was one of our best machine code programmers Paul Boise. Paul is using the MS-DOS machines but still likes his TS2068. Come to the next meeting and say "hi" to Paul.

As reported to me the meeting turned into a bull session. It sounds like you had a good time without me, or was that inspite of me? Well whatever. If the idea of going to Dayton sounds good to you let me know at the meeting. I hope we can have a good contingent at the Dayton fest. This should be a good way to show the computer community what we Sinclair users are like.

Well UPDATES magazine and Computer Monthly keep arriving. UPDATES, of course is our last and only Sinclair computer magazine. If you are a die hard Sinclair computer person this is a must for you. It is chock full of new product news, programs and happenings in the Sinclair community. It is published 4 times a year and well worth the subscription price.

The second magazine is not a computer specific magazine but a magazine to display the MS-DOS world hardware. But they do have a classic computer section which includes Sinclair computers.

Welcome back Pancho. He renewed at the last meeting. There are still four members who have not bye guys.

## Other Ramblings

Just got a phone call from Bob Swoger of the Chicago group. He told me about a fest in the Chicago area called the Rainbowfest. It is to be held April 26 through 28 at the Shamburg, IL Height Regency hotel. He explained about them not being able to hold a fest. He gave two reasons, and both good ones. First was that their group was just too small to do it. They only have 10 local members. The second is the area in and around Chicago is too expensive.

Bob did give me Don Lambert's phone number and address. They're as follows: Phone (219) 925-1372. Home address is Don Lambert, 1301 Kiblinger Place, Auburn, IN 46706-3010. Bob feels with Don in charge of the SNUG newsletter things will get better.

Thanks for the information Bob.

## Sinclair Names

Again I want to reiterate that I have over 1100 names and addresses of old and current Sinclair users available to you. I can print them by State so you only have to dig through the ones closest to you to find members. The only thing I ask for is mailing costs.

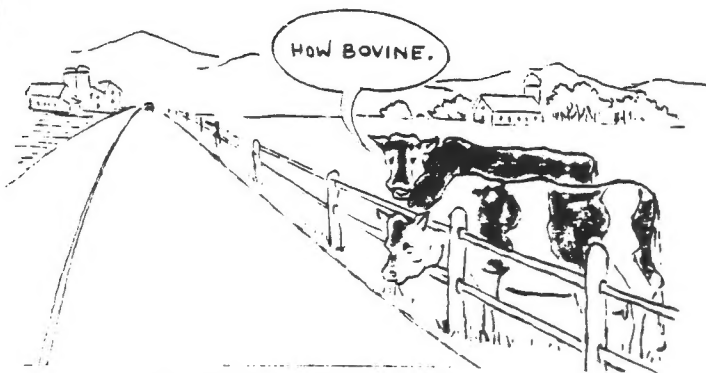

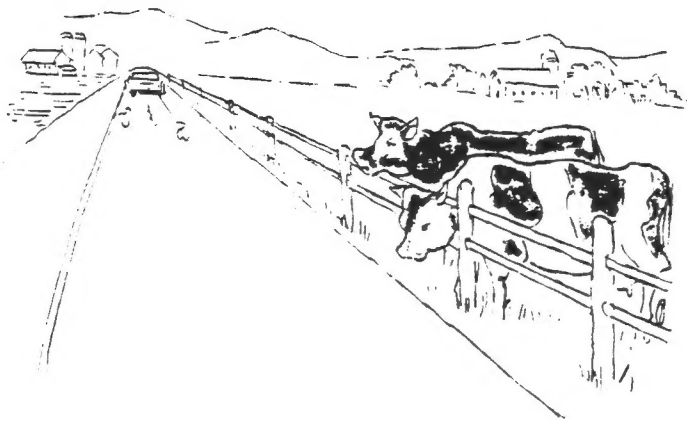

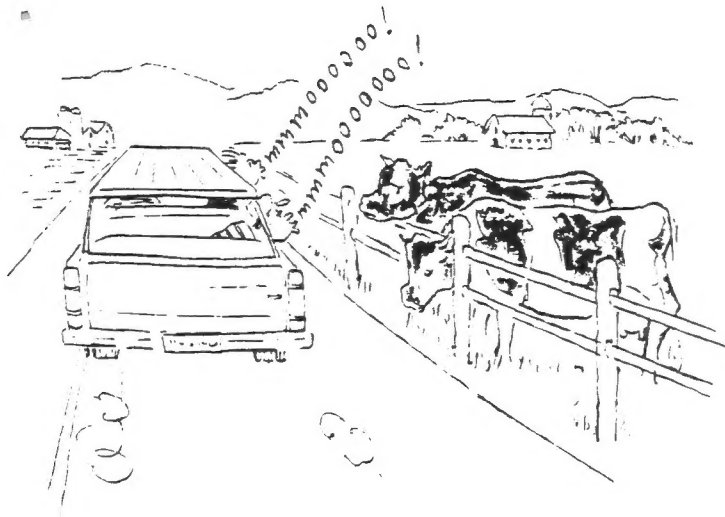

If you want I can put the data on disk in either Archive format or Quill. I can give you 3.5 DD, 5.25 DD or 5.25 QD. If you want a disk please include it with your request.

Please let me know if you want phone numbers also. I use Wood Wind's database program DBADDRES and the mailing label print does not include the phone number. I will print or build a second file containing the name and phone number for you if you want it.

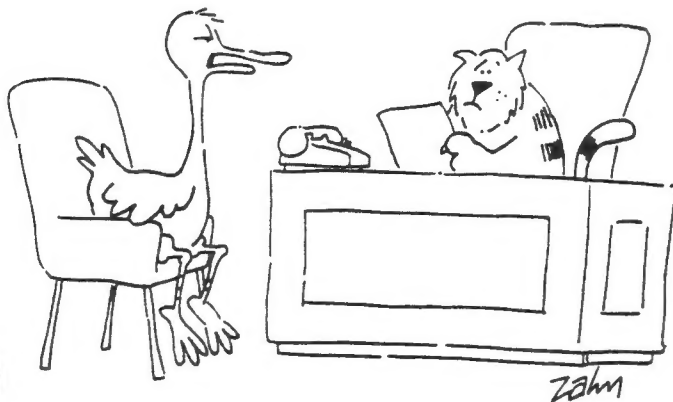

I also will accept any name, address, and phone number of any active/inactive Sinclair user.
